

YOUR HOME SYSTEMS AND APPLIANCES WORK HARD.

OUR PLANS MAKE IT EASY TO TAKE CARE OF THEM.

What is a home warranty?

It's a one-year service agreement that covers the repair or replacement of major components of many home systems and appliances when they break down due to normal wear and tear.

American Home Shield® helps cover components of up to 21 home systems and appliances you use every day like your A/C, plumbing, washer, dryer, and refrigerator.

When a covered item breaks down, we'll come to your home and repair it, or we'll replace it.

Why choose American Home Shield?

Over 45 years of experience.

We founded the home warranty industry and have been helping homeowners like you for more than 45 years.

No system or appliance is too old.

We don't care how old your home systems and appliances are, and we don't require maintenance records or home inspections.

We're local, no matter where you live.

We've built a network of over 17,000 skilled and licensed contractors to turn your home problems into a solution.
